- **GROUP TUTORING** : our group tuition brings out the best in students. Our group classes make learning fun, and encourages students to think creatively and build strong communication skills. It is the perfect combo of socializing while learning!

**Guide about our prices:**

This package cover grade 1 to 12 learners . for individual classes the report is given to track your child progress this helps you to see the work we have done with your child and the performance. After every class free hand books are is given to your child . free mentorship is given. A learner can consult anytime to her/his tutor . learners will be tested every month and her/his results are recorded every month. This helps us to see how the learner is improving and to know where the is weaknesses are. These is why we are different from other tutoring companies and making our services affordable.

This packages is for all curriculums .

- **For private lessons**

You choose price that goes with your budget per month.

Some of this prices are discounted.

For example : if wanting 16 hours for 1 subject as we charge R150 x 16 hours = R2400 PER MONTH but per month you pay R2200 instead of R2400.

IF you want 3 subjects for your child and 16 hours per subject. This is how we calculate it 3 sub x 16 hours = 48 hours then 48hours x R150 = R7200 PER MONTH but you pay R6000 PER MONTH instead of R7200.

- **For group classes :**

These are classes that you attend with other students . you are given time slot to attend classes whether online or at our centre. We have 2 types of group classes , classes attending every Monday to Thursday every week it depends on how many subjects you want and how much it is charged for those subjects for example: 2 subjects for R3000 this price cover both subjects it is paid monthly.

We have weekend classes Saturday and Sunday . this one you are given a timetable that have timeslot of your grade if your class is 11:00 – 12:00 it will happen by that time every week.

If you miss classes there's no need to worry about it the class are recorded. And sent to you you will watch if you lack understanding you ask in the group of learners you are added in the tutor will respond to you and answers your question.

You choose a price that your budget match with it. This prices were made to accommodate every leaner who cant afford individual classes. If your child want both group classes and individual it mean you add private lesson price and group lesson .the total is the one you suppose to pay.
